

EMC {code}

Community Onramp for
Developer Enablement

"CODE OPEN, DEPLOY EVERYWHERE" - EMC believes in open source.
CODE is here to share and collaborate with developers worldwide.

HELLO WORLD

This past week has been full of many more treats than tricks in the Open Source world: we reached full capacity at our [WebSummit Docker/EMC {code} tutorial](#), [Pivotal open sourced Greenplum](#), and we had a great time at both OpenStack Tokyo and ContainerDays NYC. Read more about what we've been up to, and hope to see you at an [EMC {code} event](#) or in the [{code} community](#) soon!

We hope you'll enjoy this newsletter. We'll do our best to distill, aggregate and share news related to the {code} community and industry happenings. We'll provide the content, but we need your feedback. You can always reach us at emccode-newsletter@emc.com.

code.community

ContainerDays NYC!

We were happy to be a part of [ContainerDays NYC](#) last week and reconnect with some great local community members, EMC'ers and partners.

ContainerDays is a small, community-organized conference focused on-- you guessed it-- container technology. Sessions ranged from an ecosystem view of containers, to hands-on technical sessions.

This year, EMC {code} was a silver sponsor, and [@jonasrosland](#) delivered a session on the Docker

How to Use Docker Swarm with a Persistence Layer

[The latest EMC {code} blog post](#) covers how to set up Docker Swarm, create a cluster, and run stateful containers using EMC {code} data persistence project [REX-Ray](#).

[Let us know](#) if you are able to get REX-Ray and Swarm up and running, and you might just earn some cool EMC {code} swag!

LISA Conference

WASHINGTON DC

November 8-13

EMC {code} is a Silver sponsor for USENIX's LISA Conference and will be hosting our Mars Hackathon throughout the week. If you're in the DC area, or looking to learn new DevOps skills...

[Register today!](#)

DockerCon EU

BARCELONA, SPAIN

November 16-17

DockerCon EU is sold out this year (again!) but make sure to find the EMC {code} team if you're planning on attending. We'll be there learning, coding and meeting community members.

NoSQL Database Options

This video covers the range of options for NoSQL databases and some essentials: choosing keys and data types, defining normalization, and choosing which database is right for each use case. Watch the short video here (nice find, richardwhiteio - posted on [CodeCommunity](#)).

We hope you enjoyed the 39th issue of the EMC {code} newsletter.
Thanks for subscribing!
