

Welcome to the {code} Weekly, a Newsletter focused on the {code} Community, Team, open source and storage/container trends in the tech industry.

{code} Weekly Highlights

We are thrilled to announce we have reached a new milestone of 3,500 people in the {code} Community! And talking about the {code} Community, the Dell EMC World presentations are on Slide Share and ready for your viewing. [Kenny Coleman](#) consolidated them in his [latest blog](#). Our team is always out and about spreading the {code} and open source message. See below on what Jonas Rosland has been up to in Japan at the Open Source Summit.

{code} Community

We are humbled by the growth and participation of the {code} Community. This week we reached **3,500** members who joined the community to know more about open source development, cloud native solutions and software-based infrastructure. With your continued support, we are growing not just from a member standpoint but also in messages that you send. This past month we had an average of over 12,000 messages per week, that's a lot of interactions!

We are delighted that you've chosen the {code} Community as a place to reach other open source aficionados.

A big thank you from the entire {code} team!

[SIGN UP HERE](#)☐ I agree to the {Code} of Conduct

Right now there are **80** online community members

{code} Org.

This week [Jonas Rosland](#) attended the Open Source Summit in Japan, presenting his session on "**Leading an Open Source Community at a large Enterprise**" to a packed room. The audience had questions on how to create a community of their own, get buy-in from their management and how we handle breaches of our Code of Conduct. You can view his [presentation here](#).

Jonas also visited the Dell EMC Japan office to talk about open source at Dell EMC and the work the {code} team has done around container technologies, with a focus on REX-Ray and container storage implementations for Docker, Mesos and Kubernetes. A lot of great questions came from the team, which led to deep discussions on how to manage containers in a modern datacenter and how open source has changed the infrastructure landscape for both our customers and us.

{code} Industry

Containers:

{code} Calendar

GopherCon

Denver, CO
July 12-15, 2017

Join us and the Go community as we head to Denver for GopherCon. We will participate in various workshops on July 12th followed by a fantastic 2-day conference, and then a jam-packed community day on July 15th.

We are especially excited to announce that [Ashley McNamara](#) (Go Enthusiast, {code} Catalyst and Principal Technologist at Pivotal) is a keynote speaker. Stay tuned for more details to come!

Visit the site for more information and [sign up today!](#)

Open Source Summit NA

Los Angeles, CA
September 11-13, 2017

[Register before June 18th](#) to receive the early bird discount.

MesosCon NA

Los Angeles, CA
September 13-15, 2017

[Register before July 15](#) to receive the early bird discount.

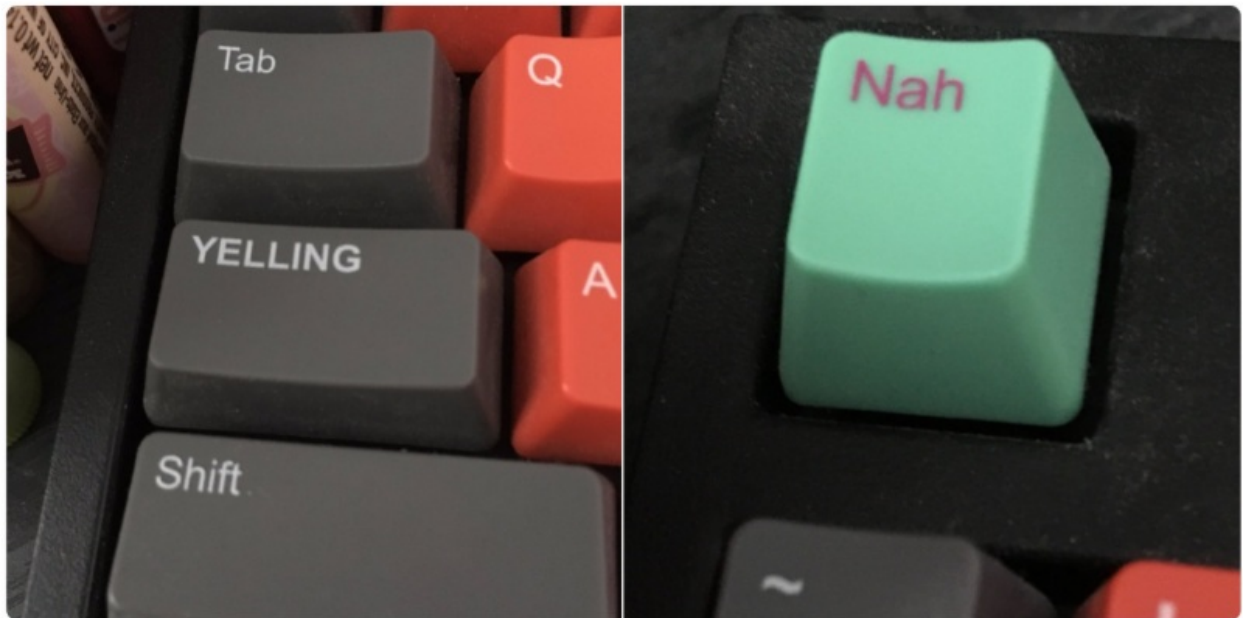

Open Source Summit NA and MesosCon NA will be hosted back to back this September in LA. So if you are planning on heading to one of them, it's definitely time to consider both!

Stay tuned for more details on what the {code} Team has in store for these two events.

To stay up to date on where you can find the {code} Team, check out our [calendar](#).
