

EMC {code}

Community Onramp for
Developer Enablement

"CODE OPEN, DEPLOY EVERYWHERE" - EMC believes in open source.
CODE is here to share and collaborate with developers worldwide.

HELLO WORLD

With all those open containers last week, we're wagering you have a Docker hangover this week. Well, the momentum keeps building, and we're seeing more and more news and announcements in the container space (check out some of the links in the industry section). The {code} team has some exciting container-related projects planned for the next quarter, and we're looking forward to sharing them with you all.

We hope you'll enjoy this newsletter. We'll do our best to distill, aggregate and share news related to the {code} community and industry happenings. We'll provide the content, but we need your feedback. You can always reach us at emccode-newsletter@emc.com

code.community

Join the {code} Community:

EMC {code} invites *everyone* to join the newly started CodeCommunity, where you'll find interesting people to talk to about Go, Ruby, Python, Vagrant, Docker, automation, coding, hacking, you name it, it's your community!

Head over to community.emccode.com to get started.

GopherCon

DENVER, CO

July 7-10

Three days of talk, events,

You can meet some of these cool people! Fancy carpet not included.

And, read about the DockerCon Hackathon (from the trenches!)

Developer Evangelist [@clintonskitson](#) spent a beautiful weekend in San Francisco... heads down, laptop in hand, participating in DockerCon's hackathon. Clint partnered with a few others (including developers from Salesforce, Ericsson) to create an solution focused on VLAN tagging with Docker. [Read more about their project, and Clint's experience, here.](#)

code.team

Free and Open: DevOps Training Videos Now Available!

On the {code} team, we try to work, code and produce content in the open. This includes our EMC training. EMC {code} developer evangelist [@jonasrosland](#) and one of our favorite community members, [@mcowger](#), created some introductory-level content on DevOps tools, concepts, and methodologies.

Check them out (below) and let us know what you think. BTW, they're all close to 10 minutes long-- perfect for a coffee break.

- [Intro to Docker and Containers](#)
- [Infrastructure as Code](#)
- [CoreOS 101](#)
- [Intro to Agile Methodology](#)
- [DevOps Tools: Vagrant and Packer](#)
- [DevOps Communication and Collaboration Tools](#)
- [DevOps Tools: Cloud Foundry](#)
- [Container Management: Kubernetes](#)

code.industry

Docker

and hacking-- all things Go! A few {code} team members will be present there, let us know if you'll be there!

EMC {code} at OSCON 2015

PORTLAND, OR

July 20-24

EMC {code} will be at OSCON this year-- *the* conference for all things open source: technology, community and everything in between. Jonas and Kate will be delivering a session on community management and creating dashboards through keen.io.

[Register for your spot at OSCON!](#)

code.learn

You read all the Docker content and watched all the training we sent last week, right? Ok, good. [Now you can learn how to deploy ECS with five ways of Docker.](#)

{code} Evangelist @[kendrickcoleman](#) also put together [this video](#), which covers how to deploy ECS as a multi-node cluster using Docker tools.

All smiles at the Docker training with the EMC Midrange Storage team!

For feedback, topic ideas, or corrections, please email emccode@emc.com.
