

# EMC {code}

Community Onramp for  
Developer Enablement

"CODE OPEN, DEPLOY EVERYWHERE" - EMC believes in open source.  
CODE is here to share and collaborate with developers worldwide.

## HELLO WORLD

If you read last week's newsletter, you know REX-Ray 0.2 was released. REX-ray 0.2 is heavily focused on standardizing some of the framework for REX-Ray. (You can see the full roadmap release plan [here](#)). You might notice that REX-Ray is now super easy to install and configure. [Read the full blog post](#) by @clintonskitson, and let us know what you think!

We hope you'll enjoy this newsletter. We'll do our best to distill, aggregate and share news related to the {code} community and industry happenings. We'll provide the content, but we need your feedback. You can always reach us at [emccode-newsletter@emc.com](mailto:emccode-newsletter@emc.com).

### Another Docker HackDay in the Books!

Last week, EMC {code} hosted another Docker HackDay in advance of Docker's Global Hack Day. We saw another event with record attendance, and had a great time meeting new community members.
