EMC {code}
Community Onramp for Developer Enablement

"CODE OPEN, DEPLOY EVERYWHERE" - EMC believes in open source. CODE is here to share and collaborate with developers worldwide.

HELLO WORLD

We're coming close to the end of the year, and happy to see tremendous growth on the {code} community. Check out the recap blog (highlighted below) to see what we've been up to over the past quarter, and a big thank you to everyone who has joined, contributed, shared, favorited, fixed, debated, commented, emailed, tweeted and participated so far.

We hope you'll enjoy this newsletter. We'll do our best to distill, aggregate and share news related to the {code} community and industry happenings.We'll provide the content, but we need your feedback. You can always reach us at emccode-newsletter@emc.com.

Mars Challenge at LISA!

This week, EMC {code} is at LISA'15, the USENIX conference for system adminstrators. We brought the EMC {code} Mars Challenge to DC, and kicked off this evening with four motivated teams. As I write this (at 11.30 pm) three of the teams are still hacking away to take away the grand prize tomorrow night.

LISA Conference

WASHINGTON DC

November 8-13

EMC {code} is a Silver sponsor for USENIX's LISA Conference and will be hosting our Mars Hackathon

[The Mars Challenge](#) debuted at LinuxCon in Seattle, and challenges participants to use modern technology and practices like containers, distributed databases, continuous delivery, and distributed application deployment-- to create a shield that protects them from asteroids and heat flares. The competition is high!

Stay tuned to the newsletter or [follow us on Twitter](#) to see who took home the prize!

A Quarterly {code}r Review

If you're curious about what the {code} team has been working on, what our new charter is, and how we're executing against it, it's summed up nicely in the latest EMC {code} post. We'll try to push out these updates more regularly, and of course, none of this is possible without our community. (So thanks again!)

DockerCon EU
BARCELONA, SPAIN
November 16-17

DockerCon EU is sold out this year (again!) but make sure to find the EMC {code} team if you're planning on attending. We'll be there learning, coding and meeting community members.
