EMC {code}

Community Onramp for Developer Enablement

"CODE OPEN, DEPLOY EVERYWHERE" - EMC believes in open source. CODE is here to share and collaborate with developers worldwide.

HELLO WORLD

As 2015 winds down, the EMC {code} team recently held an offsite meeting that included visits from EMC leaders Jeremy Burton (President of Products and Marketing) and CJ Desai (ETD President). Read more about these conversations and other aspects of our offsite below.

Please note that this is our final newsletter for 2015. We look forward to EMC {code} success and its' growing Community in 2016!

We hope you'll enjoy this newsletter. We'll do our best to distill, aggregate and share news related to the {code} Community and industry happenings.We'll provide the content, but we need your feedback. You can always reach us at emccode@emc.com.

code.community

A Community with Traditions

'Tis the season for traditions both new and old. Stephanie Carlson (from the EMC {code} Team) wanted to know what traditions the {code} Community has and asked "What is their holiday tradition?"

> Jonas Rosland said that "he celebrates both Swedish and American Christmas (on different days) with their respective traditions (did someone say pickled herring)."

> For Damian Karlson ({code} Community Member) it's

code.overheard

How to offend four groups of geeks with one photo:

"enjoying *Star Wars, Elf* and *Polar Express,* and also grabbing a mug of hot chocolate while decorating the tree or putting up some lights."

Traditions bring culture and value to the Community. Do you have traditions you'd like to share? Join the {code} Community on Slack or send us a tweet @EMCcode to be a part of the conversation.

From the EMC {code} Team,

Have a Wonderful Holiday Season!

Happy New Year!

EMC {code} Meets with EMC Leadership

Last week the EMC {code} team spent time together as a team. Thursday was our team bonding day where we spent time connecting and getting to know one another on a more personal level, since we're spread out across the US and don't see each other face to face every day. We were able to share lots of interesting stories, anecdotes and hilarious commentaries together.
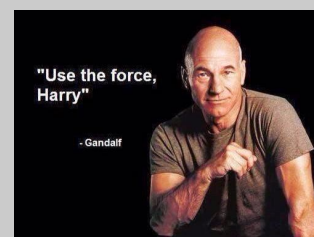

On Friday, the team had an amazing opportunity to meet with Jeremy Burton (President of Products and Marketing at EMC) and CJ Desai (President of Emerging Technology Division at EMC), asking us about what we see as the future of open source at EMC and how vital EMC {code} is to continuing this initiative. The EMC {code} Team is honored and grateful for this opportunity and we hope to continue to see added value created both internally and externally in 2016.

We also spent time a recapping of what each team member has been up to this quarter and discussed the EMC {code} 2016 Roadmap.
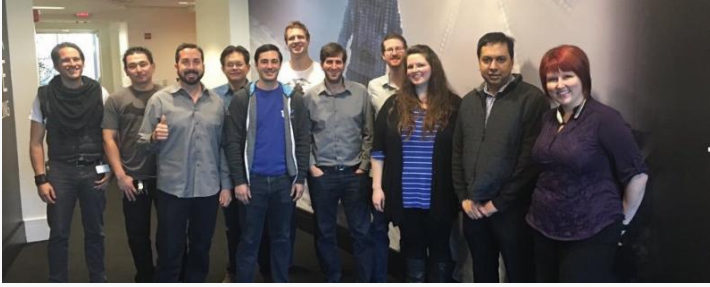

We are excited for what is to come in the New Year.

Jeremy Burton and the EMC {code} Team gather for some face time.

The EMC {code} Team with CJ Desai
