HELLO WORLD

EMC is throwing a [pretty big party next week](#), but we wanted to welcome VMware to a different kind of party - the [publishing open source projects](#) party! We've been doing this with [EMC {code}](#) for about six months now and it's been extremely fun to connect and collaborate with communities. It's more "BYOB" and "Pot Luck" than debutante ball, but the impacts you can have through open collaboration are extremely powerful. We're excited that you joined the party, and let us know if you need any recipe ideas.

We hope you'll enjoy this newsletter. We'll do our best to distill, aggregate and share news related to the {code} community and industry happenings.We'll provide the content, but we need your feedback. You can always reach us at emccode-newsletter@emc.com

Tools of the Trade
If we're lifting the veil on our code, why not the tools that help our team run as smoothly as possible? EMC {code} developer advocate @[jonasrosland](#) is the pied piper of new SaaS tools and has brought in some great applications that make our lives easier every day.

Here are the tools that power our team commuinication. We'll talk more about the developer toolkit in a future issue.

Communication:

- **Slack**- viva la chatroom! Slack has reduced our

SEE YOU NEXT WEEK!

emails significantly and made communication across distances and timezones easy and mobile. [People seem to agree](#).

- **ConstantContact**- an all-in one contact list (helps us with event registrations and communications-- all in one platform
- **Wordpress-** The best in the blogosphere. It helps that we have someone with mad design skills (@[kendrickcoleman](#))

Collaboration:

- **Trello**- the digital version of sticky notes/whiteboards. We use Trello for planning CFPs, newsletter topics, and tracking status updates on our #DevHigh5 gifts.
- **Quip**- Like Google Docs, but better. We take meeting notes in the "open" on Quip.
- **KnackHQ**- We track community projects on Knack
- **GitHub**- well, yeah.

Let us know if you have any must-have communication tools for developer communities. Drop us a line @[EMCcode](#)

Introducing Qurt & #DevHigh5 Creator, Daniel Moran

Submitted by EMC'er Daniel Moran, the Quarterly Utility Reports Tool (QURT) is an add-on utility for EMC's RecoverPoint for VMs product, that is available as open source software. QURT provides an easy way to monitor the usage of one or more RecoverPoint for VM system s.

It is intended for users who wish to generate a quarterly report of replicated Virtual Machines.

A standalone web-container exposing REST services and AngularJS client and sampling RecoverPoint systems for virtual machines (VM) data.

[Check out QURT on GitHub](#) and make sure to [follow Daniel](#) for some more cool projects!

Containers and Container Management

- [Scaling Your Docker Containers with Apache Mesos](#)

LAS VEGAS, NV

Join EMC {code}, local meetup organizations, and peers to learn, network and grab a drink (on us) before EMC World. Free training includes: Infrastructure-as-code, Transforming for DevOps, and 101-level topics (Docker, CI/CD, CloudFoundry).

SOLD OUT! SEE YOU SOON!

Open @ EMC World May 4-7

LAS VEGAS, NV

If you're heading to EMC World, visit the Open @ EMC booth to hear from interesting partners (Chef, Puppet, Cloudera, to name a few), relax, recharge and grab a cup of coffee.

[There's still time to register for EMC World!](#)

OpenStack Summit

VANCOUVER, CANADA

EMC {code} will have a presence at OpenStack Vancouver-- come visit the activity station to learn more about the {code} team and how you can get involved.

[OpenStack Summit 2015 Registration](#)

OVERHEARD

- New Docker Book version out - http://dockerbook.com - updated for Docker 1.6 and including new section on Swarm!
- [Content and Information on VMware Photon and Lightwave](#)
- [An Updated Docker Ecosystem Map](#)

DevOps

- [Start #DevOps. Today. 9 1/2 Simple Steps](#)
- [31 Reference Architectures for DevOps and Continuous Delivery](#)
- [Borg: The Predecessor to Kubernetes](#)
- [Hashicorp Announces "Vault"](#)- A Place to Keep Secrets

Modern Applications

- [What is open source? Licensing, history, and more](#)
- [How can we Build Better Complex Systems? Containers, Microservices, and Continuous Delivery](#)
- [Coding is Key to Your Child's Future](#)
- [5 Microservices Resources you Need in your Life](#)

`code.learn`

What our {code} team is loving this week:

- [Spring Guides](#): designed to get you productive as quickly as possible and using the latest Spring project releases and techniques as recommended by the Spring team
- [The Real Reason Why OpenSource Startups Fail](#) (TechCrunch/Mirantis)
- [Learn Git Branching](#) (The Easy Way!)
- And of course, [replays on the EMC Code YouTube Channel](#)

We hope you enjoyed the twelfth issue of the EMC {code} newsletter. Thanks for subscribing!
